

Bradley Vigil

Applied and Computational Topology | Data Science | Mathematical Neuroscience

Research Overview

My interdisciplinary research develops theory and models to understand the mathematical properties and structure of complex systems.

I am particularly interested in interdisciplinary questions regarding biological processes expressing both continuous and network features. My research praxis fuses mathematical modeling, differential equations, computational topology, data science and interdisciplinary collaboration to target challenging problems from epilepsy and neurodegenerative disease to climate change and biodiversity.

Awards and Notoriety

- 2025-2026 *Doctoral Completion Fellow*
- 2024-2025 *Quad Fellow (By IIE): TTU Article*
- 2023-2025 *Charles S. Peirce Fellow*
- 2023-2024 *Hildebrand Fellow*
- 2023-2023 *ICERM Travel Grant \$1,145.82*
- 2021-2026 *Distinguished GRA*
- 2019-2023 *Presidential Scholar*
- 2019-2023 *Merit Scholar*

Professional Affiliations

- AMA** American Mathematical Association
- AMS** American Mathematical Society
- NAM** Natl Assoc of Mathematicians
- SIAM** Soc of Appl and Industrial Mathematics

1108 Memorial Circle
Lubbock, Texas. 79409

Education

2021-2026	Ph.D. Mathematics Texas Tech University <i>Quad Fellow,</i> <i>Hildebrand Graduate Fellow,</i> <i>Peirce Graduate Fellow, Presidential Scholar</i>	📍 Lubbock, Texas
2021-2022	M.Sc. Mathematics Texas Tech University <i>Presidential Scholar, Merit Scholar</i>	📍 Lubbock, Texas
2019-2021	B.Sc. Mathematics Texas Tech University <i>Presidential Scholar, Merit Scholar</i> Minor in Economics	📍 Lubbock, Texas

Academic Appointments

2026-Present	Charles S. Peirce Postdoc Fellow <i>Institute for Studies in Pragmatism</i> → Applied and Computational Topology, → Agentic AI Models, → Mathematical Neuroscience	📍 Lubbock, Texas
2021-2026	Distinguished Grad. Res. Asst. <i>Texas Tech Graduate College</i> <i>Dept. of Mathematics and Statistics</i> → Applied and Computational Topology, → Data-driven Mathematical Modeling, → Mathematical Neuroscience	📍 Lubbock, Texas
2021-2026	Grad. Instructor <i>Dept. of Mathematics and Statistics</i> → Instructor of record: Calculus II; Ordinary Diff. Eqn.; Lin. Alg. → Offline and online multimodal curriculum → Large lecture leadership experience	📍 Lubbock, Texas

Thompson, Andrew Shin, Boris Decourt, Yifan Wang, **Bradley Vigil**, Anna Solodukina, Shakkya Ranasinghe, Robert Young, Vijay Hegde, and Naima Moustaid-Moussa. *Linking dietary patterns to Alzheimer's disease biomarkers with network mathematical modeling could enable new approach methodologies preventative AD research: A narrative interdisciplinary review*. Frontiers in Nutrition, 2026, doi: 10.3389/fnut.2025.1673533.

Extracurricular Activity

- Dream Center (Lubbock, TX)**
→ Initiated the development of cooking classes for low economic families designed to provide key insights into how diet is tied to Alzheimer's disease
→ Collaborated with horticulturists to develop lists of healthy and affordable foods that can grow in the climate of the Texas panhandle
- Math Circle (Texas Tech Univ.)**
→ For middle and high school math students
→ Provides challenging problems
→ Encourages excitement for mathematics
- Math Club (Texas Tech Univ.)**
→ Discuss grad school applications with undergrads
→ Discuss grad school life with undergrads
- Topological Data Analysis Workshops**
→ Hosted workshops for faculty and grad students for an introduction to the theory and computational tools for topological data analysis
→ Jupyter notebook available [here](#)

Academic Presentations

April, 2026	Sandia Albuquerque, New Mexico <i>Title of Talk: Complexity Takes Shape</i> Sandia National Labs (invited)
September, 2025	SIAM TX-LA Austin, Texas <i>Organizer for mini-symposium Title of talk: Getting on Your Nerves: A Restricted View of Intersections</i> University of Texas (invited)
May, 2025	Quad Fellowship Spring Symposium Virtual <i>Syndemics: An Analysis of Factors Using Machine Learning Techniques - program, code</i> →
October, 2024	Institute for Studies in Pragmaticism Lubbock, Texas <i>Understanding the Importance of Academic Outreach Across Societies and Cultures. Insights from a young scholar on networking with scientists, technologists, and politicians</i> Texas Tech University (invited)
October, 2024	SIAM TX-LA Waco, Texas <i>Organizer for mini-symposium Title of talk: Making a Complex Choice</i> Baylor University (invited)
November, 2023	SIAM TX-LA Lafayette, Louisiana <i>Organizer for mini-symposium Title of talk: Networks, Topology, Data and Pathology</i> University of Louisiana at Lafayette (invited)
March, 2023	Groups and Dynamics Conference Austin, Texas <i>Dynamics, Dysfunction and Degeneration: The mathematics of Alzheimer's disease</i> The University of Texas at Austin (accepted)

Academic Workshops

August, 2025	The Geometric Realization of AATRN Chicago, IL <i>Institute for Math and Stat Innovation (IMSI): website</i> University of Chicago (accepted)
October, 2024	The Quad Summit Washington, D.C. <i>Institute of International Education: website</i> (invited)
April, 2024	Python: Topological Data Analysis II Lubbock, TX <i>Institute for Studies in Pragmaticism</i> Texas Tech University (organized)
March, 2024	Python: Topological Data Analysis I Lubbock, TX <i>Institute for Studies in Pragmaticism: flyer</i> Texas Tech University (organized)
October, 2023	Topology and Geometry in Neuroscience Providence, RI <i>Institute for Computational and Experimental Research in Mathematics (ICERM): website</i> Brown University (accepted)

Scientific and Research Computing

Data Science, Machine Learning	Python: Proficient GUDHI: Journeyman Tensorflow: Apprentice
Modeling and Simulation	Python : Proficient Matlab: Proficient C/C++: Journeyman Mathematica: Journeyman
Academic Writing	Latex : Proficient
